

Why Niagara Hospice House?

"Hospice care is primarily provided in a patient's or caregiver's home, however, there are some individuals who do not have a home environment appropriate for hospice care, or lack the family or friends necessary to provide 24/7 care in a home environment.

Additionally, some hospice patients need around-the-clock medical attention during medication adjustments or for symptom management. In response to these needs, Niagara Hospice House was built in 2007 in the Town of Lockport."

– Janet Ligammari, RN, Director of Nursing Services

***Niagara Hospice has been dedicated to
providing the right care, in the right
place, at the right time since 1988.***

Niagara Hospice maximizes moments by treating the patient, not the disease. The hospice team provides expert symptom management, caregiver relief and comprehensive end-of-life guidance to the entire family to help everyone cherish precious time together.

Eligibility for Niagara Hospice:

- Niagara County resident
- Illness that is life limiting, approximate prognosis of six months or less as determined by physician and hospice team
- Person no longer pursues curative treatment of disease

In addition to the above criteria, individuals may be eligible for care at Hospice House in the following situations:

- Increased caregiving needs or insufficient caregiver system at home (Residential Suites)
- Patients receiving hospice care at home with acute care needs (General Inpatient Unit)

When should I contact Niagara Hospice ?

If you think Niagara Hospice may be right for you or a loved one, contact us & we will do the rest.

You need not try to determine if you qualify - our staff are available to provide an informational consultation at no cost & with no obligation to accept services.

General Inpatient Unit (GIP): Homecare Symptom Management & Short-Term Care After Hospitalization

The general inpatient unit features 10 private suites that provide short-term acute care. Through 24/7 medical monitoring, staff helps bring pain and symptoms under control, alleviating the need for emergency room visits and hospitalizations.

The Hospice House staff collaborates with the home care team to ensure an easy transition for the patient back into their own home.

The general inpatient wing also has four isolation rooms that accommodate illnesses with airborne contagions to protect everyone.

Respite care for up to five days is also offered, based on room availability, for families needing a break or traveling.

Residential Suites: For Patients with Longer-Term Increased Caregiving Needs

The residential care wing features 16 private suites. Each suite is designed with patient and family in mind with a sitting area and easychair sleeper.

Every family also has access to gathering rooms, fireplaces, a chapel and Niagara Hospice Memorial Gardens.

The General Inpatient Unit & Residential Suites provide the following medical and ancillary services:

- 24-hour nursing care
- Daily physician visits (GIP)
- IV therapy for pain and symptom management
- Pain management
- PharmD consultations
- Nasal gastric suction
- Medical social work
- Spiritual care
- Pet and music visits
- Volunteer services
- Jacuzzi for spa services and relaxation

“One of the most difficult times of my life was made a little easier by literally every single person that I met or talked with at Niagara Hospice House. They are so amazing! EVERYONE was so incredibly kind, compassionate, patient, and thoughtful.”

-loved one of Hospice House patient
